Dear Parent/Guardian

I am writing to introduce the new **Saint Ignatius' College Riverview App**—a significant step forward in how we communicate and connect as a community. Built on the *Digistorm* platform, which has been adopted by hundreds of schools around the globe, the Riverview App is tailored to meet the needs of College families while reflecting best practices in school communication.

Developed for parents, in direct response to feedback from the 2023 Communication Audit, the new Riverview App centralises essential information and simplifies the way families engage with College life. Expanding and incorporating existing tools like *Clipboard*, the App now offers a single, comprehensive platform. It brings together a range of information including your son's learning schedule, sports fixtures, College news, absentee submissions and key communications. The App will streamline how families stay informed and connected.

I am especially grateful to the P&F Executive and Year Group Coordinators for their companionship throughout this project's development, testing and rollout.

The Riverview App is **now available to download** - simply search for 'Riverview' via the *Apple App Store* or *Google Play*. Once installed, you can log in with your email address and password registered with the College, or by using any authentication platform (Google, Microsoft, Apple or Facebook). After logging in, the Riverview App will automatically populate with personalised information relevant to your son/s. If you have any problems logging into the App, please don't hesitate to contact our friendly IT Support team [HERE](#).

The App will serve as the primary platform for all College-wide, Year Group, House, Boarding Division and Homeroom communications. More tailored or individual correspondence from teaching and support staff will continue to be shared via email.

To support a smooth transition, Term 2 will be an adoption period, during which all App communications will be mirrored via email. During Term 3, mirrored emails will be phased out, and the App will become the leading platform for whole-of-school communications.

The App will continue to evolve and offer new features over time. In the second semester of 2025, families can expect new additions such as:

- Co-Curricular push notices with any fixture changes, training updates & wet-weather announcements;
- New scheduling features covering Clubs, Music, and Performing Arts;
- Integration of Academic Reports within the Learning module of the App.

We encourage all families to begin using the Riverview App, which will soon become a central platform for communication across the College. For more information and FAQs, please click [HERE](#).

If you have feedback or suggestions, we would encourage you to share them via the 'More' section within the App. We look forward to seeing this new platform become a valued part of your engagement with the College and its Jesuit mission.

Yours sincerely

MN Tannock
Principal
